SUMMARY

Enthusiastic Software Engineer eager to contribute to team success through hard work, attention to detail, and strong problem-solving skills. Clear understanding of software development and web application development, with hands-on training in JavaScript, React.js, Java, MySQL, and Node.js. Motivated to learn, grow, and excel in the IT industry.

EDUCATION

BACHELORS OF COMPUTER APPLICATIONS

St. Xavier's College of Management & Technology - (7.75 CGPA) | 2022-2025

Intermediate

Teresa International Academy (73.20%) | 2018-2020

PROJECTS

Question Paper Generation Uisng Ai | 2024

🔗 <https://collegeexam.netlify.app>

- AI Question Paper Generator: Built an AI-based system to automatically generate balanced question papers and answer keys from a digital question bank, reducing manual effort for teachers.

Campus Recruitment Test |2025

🔗 <https://campusexam.netlify.app/login>

- Online MCQ Test Platform: Developed a responsive web application featuring role-based login for admin and students, timed online MCQ tests, automatic evaluation, and result generation with secure exam mode including fullscreen and tab-switch detection.

Hotel Booking |2025

🔗 <https://bookinghotelss.netlify.app/>

- Hotel Booking System: Developed a user-friendly hotel booking platform that allows users to search and filter hotels, make instant bookings, view customer reviews and ratings, and access 24/7 customer support for a seamless travel experience.
-
